SERVICE & ENTERPRISE PRICING

A clear scope.
A complete price.

SKY-AMC Limited | Hong Kong | Business registration 81331404

Published 9 October 2026. Prices below are starting budgets in GBP, before applicable taxes and separately identified third-party costs. Your written quotation confirms the full price, deliverables and payment dates before you commit.

Design, development and service budgets

Offering	Starting budget (GBP)	Basis
Website design	995.00	One-time
Business website	1,995.00	One-time
Custom software	7,500.00	One-time
SaaS MVP development	9,950.00	One-time
CRM & client portal	4,950.00	One-time
Mobile app MVP	9,500.00	One-time
Web application	4,950.00	One-time
Website chatbot setup	695.00	One-time
Focused marketing	395.00	Per month
E-commerce launch	2,495.00	One-time
Software health check	199.00	One-time
Server setup	249.00	One-time
Deployment foundations	995.00	One-time
Workflow automation	495.00	One-time

Each service has a defined entry scope, exclusions and planning period. See sky-amc.com/pricing for the full deliverables. SaaS MVP development is commissioned software development, not a hosted subscription. Orbit and Forma are illustrative portfolio concepts and are not sold as live products.

Built anywhere. Supported here.

Care for eligible websites and applications built with AI, purchased online, built by another vendor or developed by SKY-AMC. A technical review of condition, authorised access, licences and platform limitations comes before an accepted AMC order.

Essential annual care - from GBP 69.99 per year

- One annual health review
- Up to one hour of agreed routine maintenance across the year
- A short maintenance record and recommendations

Extended annual care - from GBP 179.99 per year

- Up to two planned health reviews
- Up to three hours of agreed reviews and routine maintenance in total across the year
- Maintenance notes and a prioritised improvement list

Custom maintenance agreement

Individually quoted for the named assets, complexity, included work, finite engineering capacity and coverage required. The proposal confirms the subscription price, billing cadence, term, renewal and cancellation rules. There is no universal price or unlimited support allowance.

Important scope limits

The amounts above cover a 12-month period. Included hours are total annual allowances, not monthly allowances. Customer contact is available 24/7; engineering hours, response targets, monitoring and emergency cover follow the agreement. Hosting, licences, new features and pre-existing faults are separate unless expressly included.

Adding a plan to the quote cart does not activate coverage, collect payment or authorise automatic renewal. Compare AMC coverage online.

CUSTOM & ENTERPRISE QUOTATIONS

An offer around your requirements.

Custom projects and enterprise AMC have no fixed public subscription price. The final amount is quoted after reviewing your requirements. This sheet explains the pricing inputs and what the proposal must contain; it is not a binding quotation.

How the price is scoped

Development
Workflows, users and roles, platforms, integrations, migration, testing, deployment and the handover required.

Maintenance
Named assets and environments, their condition and dependencies, included tasks, finite work allowance, engineering availability and any agreed response targets.

Third-party costs
Hosting, domains, licences, API usage, advertising spend and other supplier charges, included or separately identified in the proposal.

What you receive before committing

A written scope with deliverables and exclusions; the full payable price and currency; applicable taxes and third-party costs; one-time and recurring charges shown separately; milestones and payment dates; delivery or coverage dates; access and licensing arrangements; and any commitment, renewal and cancellation terms.
